The following three lists are those to be used for distribution of
Network documents. List A should be used by sites when they distribute
their own documents. to get RFC's to Liaisons as quickly as possible.
All but local mail should be sent Air Mail. Lists B and C will be used
by NIC in making distribution of copies to non-site Network Participants
and to Station Agents. These Lists supercede RPC 95 and RFC 155. For
phone numbers and lists of names by sites see the Current Directory of
Network Participants.

A. Initial Distribution List

Note: This list includes all Network Liaisons and others who should
receive initial distribution of RFC's, whether sent from NIC or from
sites. They will also receive selected catalogs and other formal
documents from NIC.
