Who Provides the "Little" TCP Services?
(March 1983)

This report lists those hosts which provide any of these "little" TCP
services:

```
          Port (in decimal)     Service
          -----------------     -------
                  7             Echo
                  9             Discard
                 11             Active Users (systat)
                 13             Date and Time in printable form
                 15             Netstat
                 17             Quote of the Day
                 19             Character Generator (ttytst)
                 37             Time (32 bits)
                 79             Finger
```

The list of hosts was taken from the NIC hostname table of 24-Feb-83.
The tests were run on February 23 and 24, and March 3 and 5 from
ISI-VAXA.ARPA.

Active users (port 11) (7 hosts)		Date and time (port 13) (15 hosts)
